① Berechne die folgenden Aufgaben!

/ 6

$7 + 9 = \underline{\quad\quad}$

$\underline{\quad\quad} + 19 = 48$

$17 + 9 = \underline{\quad\quad}$

$\underline{\quad\quad} + 57 = 64$

$37 + 9 = \underline{\quad\quad}$

$\underline{\quad\quad} + 65 = 73$

$47 + 9 = \underline{\quad\quad}$

$\underline{\quad\quad} + 31 = 47$

$47 + 19 = \underline{\quad\quad}$

$\underline{\quad\quad} + 82 = 91$

$47 + 20 = \underline{\quad\quad}$

$\underline{\quad\quad} + 54 = 66$

②

/ 5

$16 - 9 = \underline{\quad\quad}$

$57 = 76 - \underline{\quad\quad}$

$26 - 9 = \underline{\quad\quad}$

$43 = 52 - \underline{\quad\quad}$

$36 - 9 = \underline{\quad\quad}$

$56 = 68 - \underline{\quad\quad}$

$56 - 9 = \underline{\quad\quad}$

$94 = 99 - \underline{\quad\quad}$

$56 - 19 = \underline{\quad\quad}$

$56 - 20 = \underline{\quad\quad}$

③

/ 4½

·	6	4	3
4			
2			
7			

$\underline{\quad\quad} \cdot 5 = 20$

$\underline{\quad\quad} \cdot 7 = 63$

$\underline{\quad\quad} \cdot 8 = 24$

$\underline{\quad\quad} \cdot 6 = 48$

④

/ 4½

$63 : 9 = \underline{\quad\quad}$

$30 : 6 = \underline{\quad\quad}$

$15 : 5 = \underline{\quad\quad}$

$49 : 7 = \underline{\quad\quad}$

$72 : 8 = \underline{\quad\quad}$

$20 : 4 = \underline{\quad\quad}$

$18 : 5 = \underline{\quad\quad} \text{ R } \underline{\quad\quad}$

$28 : 3 = \underline{\quad\quad} \text{ R } \underline{\quad\quad}$

$41 : 6 = \underline{\quad\quad} \text{ R } \underline{\quad\quad}$
