Lösungswort:

A full-page sheet of white graph paper with a light gray grid. The grid consists of small squares, approximately 1 cm by 1 cm each. There are 20 columns and 20 rows of squares, creating a total of 400 small squares. A single horizontal line runs across the middle of the page, separating the top half from the bottom half. This line is slightly darker than the other grid lines. The margins are uniform on all sides.
