

- ①

A diagram of a plant cell. It has a thick green cell wall. Inside, there is a large blue central vacuole. A purple nucleus is visible. Yellow structures represent chloroplasts. Red oval structures represent mitochondria. Small blue dots represent ribosomes. The cell is filled with a light green cytoplasm.

A blank sheet of graph paper featuring a uniform grid of small squares. The grid consists of 20 columns and 15 rows, providing a structured area for drawing or writing.
