Warm Up

Vocabulary Game:

Topic: Science
First Step: The teacher is going to tell a word in the beginning.
Second Step: The first student should tell another word which comes to his/her mind first.
Third Step: The process continues untill each student finds an english word which is related with the one they have heart last.

Discuss the questions

• What three gadgets do you use most often? Have they changed in your lifetime?

• Which of your gadgets would you like to update? Why?

• What modern technology makes your life easier? What makes it a bit more difficult?

Video Time

① **Watch the first video (from 01:04 to 01:56) and the second video (from 02:56 to 04:13) and say which technologies are compared.**

https://youtu.be/DENG7Q7VRgo?t=64

https://youtu.be/DENG7Q7VRgo?t=176

② **Look at some sentences about the technologies from the video and guess the missing information. Watch both parts of the video again and check your answers.**

a) ebook readers: the cheapest version can hold _____ books in a digital form.

b) cars: the 1908 model had a top speed of _____ mph. The 2017 model has a speed of _____ mph.

c) laptops: the first laptop had a _____-inch screen and weighed _____ pounds. The new models have 13-15-inch screens.

d) mobile phones: the 1973 model weighed _____ kg and took _____ hours to recharge.

③ **Read the sentences and say what they are about.**

EBOOK   READER   CAR   LAPTOP   MOBILE PHONE

a) This modern model has a longer talk time than the old model.

b) It's the best gadget for reading.

c) This gadget is the most multifunctional of all the objects shown in the video.

d) This gadget has the biggest screen.

e) The modern model has a more powerful engine than the old one.

f) This is the heaviest thing in the video.

g) Some people say that it's worse for your eyes than the paper version.

Game:

You are going to listen to some clues about an object and must guess what it is. The fewer clues you need to guess the object, the more points you receive.

	Team A	Team B
1. Object		
2. Object
