- ① Welche Zahlen fehlen noch? Erweitere richtig und trage die fehlenden Zahlen in die Lücken ein.

$$\begin{array}{r} \cdot 3 \\ 1 \\ \hline 2 \end{array} \quad \begin{array}{r} 3 \\ \hline \square \end{array}$$

Diagram showing the expansion of the fraction $\frac{1}{2}$ to $\frac{3}{\square}$. A curved arrow labeled $\cdot 3$ points from the numerator 1 to 3. Another curved arrow points from the denominator 2 to the empty box $\square$. There are also empty boxes for the multiplier above the arrow and below the denominator.

$$\begin{array}{r} \cdot \square \\ 3 \\ \hline 4 \end{array} \quad \begin{array}{r} 6 \\ \hline \square \end{array}$$

Diagram showing the expansion of the fraction $\frac{3}{4}$ to $\frac{6}{\square}$. A curved arrow labeled $\cdot \square$ points from the numerator 3 to 6. Another curved arrow points from the denominator 4 to the empty box $\square$. There are also empty boxes for the multiplier above the arrow and below the denominator.

$$\begin{array}{r} \cdot \square \\ 2 \\ \hline 3 \end{array} \quad \begin{array}{r} \square \\ \hline 12 \end{array}$$

Diagram showing the expansion of the fraction $\frac{2}{3}$ to $\frac{\square}{12}$. A curved arrow labeled $\cdot \square$ points from the numerator 2 to the empty box $\square$. Another curved arrow points from the denominator 3 to 12. There are also empty boxes for the multiplier above the arrow and below the denominator.

$$\begin{array}{r} \cdot \square \\ 7 \\ \hline 8 \end{array} \quad \begin{array}{r} \square \\ \hline 16 \end{array}$$

Diagram showing the expansion of the fraction $\frac{7}{8}$ to $\frac{\square}{16}$. A curved arrow labeled $\cdot \square$ points from the numerator 7 to the empty box $\square$. Another curved arrow points from the denominator 8 to 16. There are also empty boxes for the multiplier above the arrow and below the denominator.

$$\begin{array}{r} \cdot \square \\ 5 \\ \hline 6 \end{array} \quad \begin{array}{r} 15 \\ \hline \square \end{array}$$

Diagram showing the expansion of the fraction $\frac{5}{6}$ to $\frac{15}{\square}$. A curved arrow labeled $\cdot \square$ points from the numerator 5 to 15. Another curved arrow points from the denominator 6 to the empty box $\square$. There are also empty boxes for the multiplier above the arrow and below the denominator.

$$\begin{array}{r} \cdot \square \\ 1 \\ \hline 4 \end{array} \quad \begin{array}{r} \square \\ \hline 20 \end{array}$$

Diagram showing the expansion of the fraction $\frac{1}{4}$ to $\frac{\square}{20}$. A curved arrow labeled $\cdot \square$ points from the numerator 1 to the empty box $\square$. Another curved arrow points from the denominator 4 to 20. There are also empty boxes for the multiplier above the arrow and below the denominator.
