# AB: Erst umwandeln!

Mathematik Bruchrechnen E 5

① **Wandle die unechten Brüche in eine gemischte Zahl um.**

Beispiel:

$$\frac{13}{3} = \frac{3}{3} + \frac{3}{3} + \frac{3}{3} + \frac{3}{3} + \frac{1}{3} = 1 + 1 + 1 + 1 + \frac{1}{3} = 4\frac{1}{3}$$

a) $\frac{12}{5} = \qquad = \qquad = \qquad$

b) $\frac{17}{8} = \qquad = \qquad = \qquad$

c) $\frac{9}{5} = \qquad = \qquad = \qquad$

d) $\frac{20}{7} = \qquad = \qquad = \qquad$

e) $\frac{14}{3} = \qquad = \qquad = \qquad$

f) $\frac{33}{12} = \qquad = \qquad = \qquad$

g) $\frac{24}{9} = \qquad = \qquad = \qquad$

h) $\frac{13}{4} = \qquad = \qquad = \qquad$

i) $\frac{9}{2} = \qquad = \qquad = \qquad$

j) $\frac{19}{6} = \qquad = \qquad = \qquad$

k) $\frac{18}{13} = \qquad = \qquad = \qquad$

l) $\frac{54}{23} = \qquad = \qquad = \qquad$
