-
- A diagram illustrating a simple addition problem. At the top, there are four colored boxes: a yellow box containing the expression $20 + x$, a red box containing the equals sign $=$, and a green box containing the number 25 . Below these are four empty rectangular boxes, each with a colored border: yellow, white, red, and green. Arrows point from the yellow, white, and red boxes to the yellow box containing $20 + x$. An arrow points from the red box to the red box containing $=$. An arrow points from the green box to the green box containing 25 .

- [illegible]

-
- A full page of blank graph paper with a uniform grid of small squares. The grid consists of 20 columns and 20 rows, creating a total of 400 squares. The lines are thin and black, set against a white background. There are no margins or additional markings on the page.

Mathematik Gleichungen M 7

- ⑤ Vereinfache den Term $4(x + 5)$ und erkläre, warum dieser nur mit Hilfe des Distributivgesetzes vereinfacht werden kann.

[illegible]

- ⑥ **Vereinfache die Terme.**

$$a) \quad 9(8 - 2) = \square$$
$$= \square$$

b) $3(x + 2) =$
 $=$

c) $(a + 4)5 =$
 $=$

d) $3 + (d + 2)2 =$

$=$

$=$

- ⑦ Vervollständige die Terme.

a) $3x + \boxed{} - x + 3 = 2x + 5$

b) $2 \cdot \boxed{} - 2a + 4 = 4a + 4$

c) $\boxed{} \cdot 3x - 12 = 3x^2 - 12$

d) · 5 + 3 = 10a + 3
