-
- A full-page sheet of white graph paper with a light gray grid. The grid consists of small squares, approximately 1 cm by 1 cm each. There are 20 columns and 20 rows of squares, creating a total area of 400 small squares. The grid lines are thin and evenly spaced.

- The diagram illustrates the construction of binary numbers using a grid of boxes. Each box is divided into three sections: a left section for a digit (0 or 1), a middle section for the number, and a right section for a digit (0 or 1). The numbers shown are 10₂, 110₂, 1000₂, 11₂, 1100₂, and 10011₂. The boxes are arranged in two rows of three. The first row shows the construction of 10₂, 110₂, and 1000₂. The second row shows the construction of 11₂, 1100₂, and 10011₂. The boxes are labeled with the numbers 10₂, 110₂, 1000₂, 11₂, 1100₂, and 10011₂ in the middle section.
