# AB, INFO: Possessive Pronouns

English M 6

Act it out!

## ① Read the text. Find three friends and act out the dialogues.

- Pete: Hey, you all! Have you heard about our food waste problem?
- Sage: Hi Pete! Yes, I have heard about it. We waste so much of our food each day!! Horrible.
- Timothy: I did not know about it... I always throw the rest of my food away and now I feel bad.
- Maeve: Hello all. It is such a silly problem, right? We throw our food away while other children and their bellies are hungry.
- Pete: And it is bad for the environment. My mom buys food for our family and it is always too much. Some of it we have to throw away.
- Sage: I talked to my parents about their food waste. They were shocked that our planet suffers because of their behaviour.
- Timothy: But how can we stop our food waste? I can talk to my parents, yes. But what can they do to change their waste?
- Maeve: Tim, it is so easy! Look, tell your mom she just has to buy the food she needs for her meals. Not more than that! And...
- Pete: And your dad can take your leftovers from lunch or dinner to work! That's what my dad does. He likes his leftovers!
- Sage: Everything starts with us. We have to stop wasting food. Then others will, too. If I change, my family will do the same.
- Timothy: I heard about Greta Thunberg. She changed her lifestyle to help save our planet.
- Maeve: Oh yes, Greta! She did it the hard way and stopped everything that could be bad for our planet. Is there maybe an easier way than her way?
- Pete: I think there is. Let us all pay more attention our food waste.
- Sage: And only buy what we need.
- Timothy: And talk to our friends and parents about it.
- Maeve: And if we have more ideas, we can chat about their effect!

## ② Underline all possessive pronouns in the text above.
