

Mediation - Work and Travel in New Zealand

English Mediation M 9

Planning your Work and Travel Trip

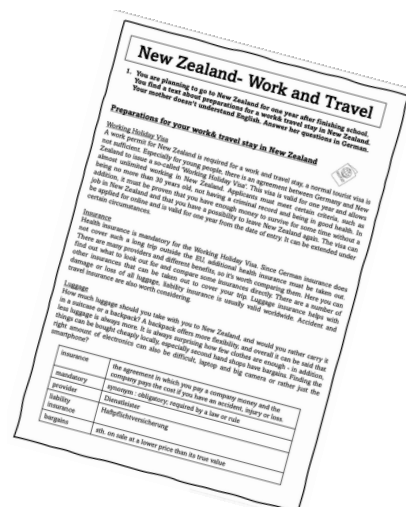

Have you ever wondered how kiwis grow? And how they are harvested? Harvest helper is one of many jobs you can try out on a work and travel trip.

Work and travel is very popular with young people. It allows you to get to know another country from more than just a tourist's perspective and earn some money on the side. So you can travel even if you don't have much money.

You would like to do this after school and you found an information sheet.

- 1 Read the 'Work and Travel' information sheet and complete the mediation text.

Das Material findest du in der English Corner im Regal unter New Zealand oder auf der Lernplattform.
